

ENFOLD

Collection

Furniture that earns its place.

Enfold was created for the spaces where people spend real time – homes, restaurants, hotels, workplaces. Places that deserve furniture worth staying in and where the furniture needs to last as long as the moments it holds.

Designed by Sami Kallio, the collection is built around a simple idea: that warmth and function are not opposites. Every piece shares the same forms, the same details, the same quiet confidence.

The Collection:

Dining Table

Chair

Armchair

Bar Table

Bar Stool

Counter Stool

Table

One Collection

A collection where every piece feels complete on its own, but unmistakably part of something larger. Tables, chairs, armchairs and stools that share the same quiet language of form and detail. Practical without being obvious about it: seating stacks, hangs from the tabletop, and comes in oak or ash with a range of metal finishes. A collection that works as hard as it looks good.

Meet The Designer Sami Kallio

Designed by Sami Kallio, Enfold explores how recurring forms and carefully crafted details can create products that feel distinct on their own and connected when combined.

”Function and expression should never compete. With Enfold, the ambition was to create products that feel warm and inviting, while solving practical needs in a natural way.”
